

Where Form Meets Function

And Where Sleekness in Design Meets Clean Room Functionality

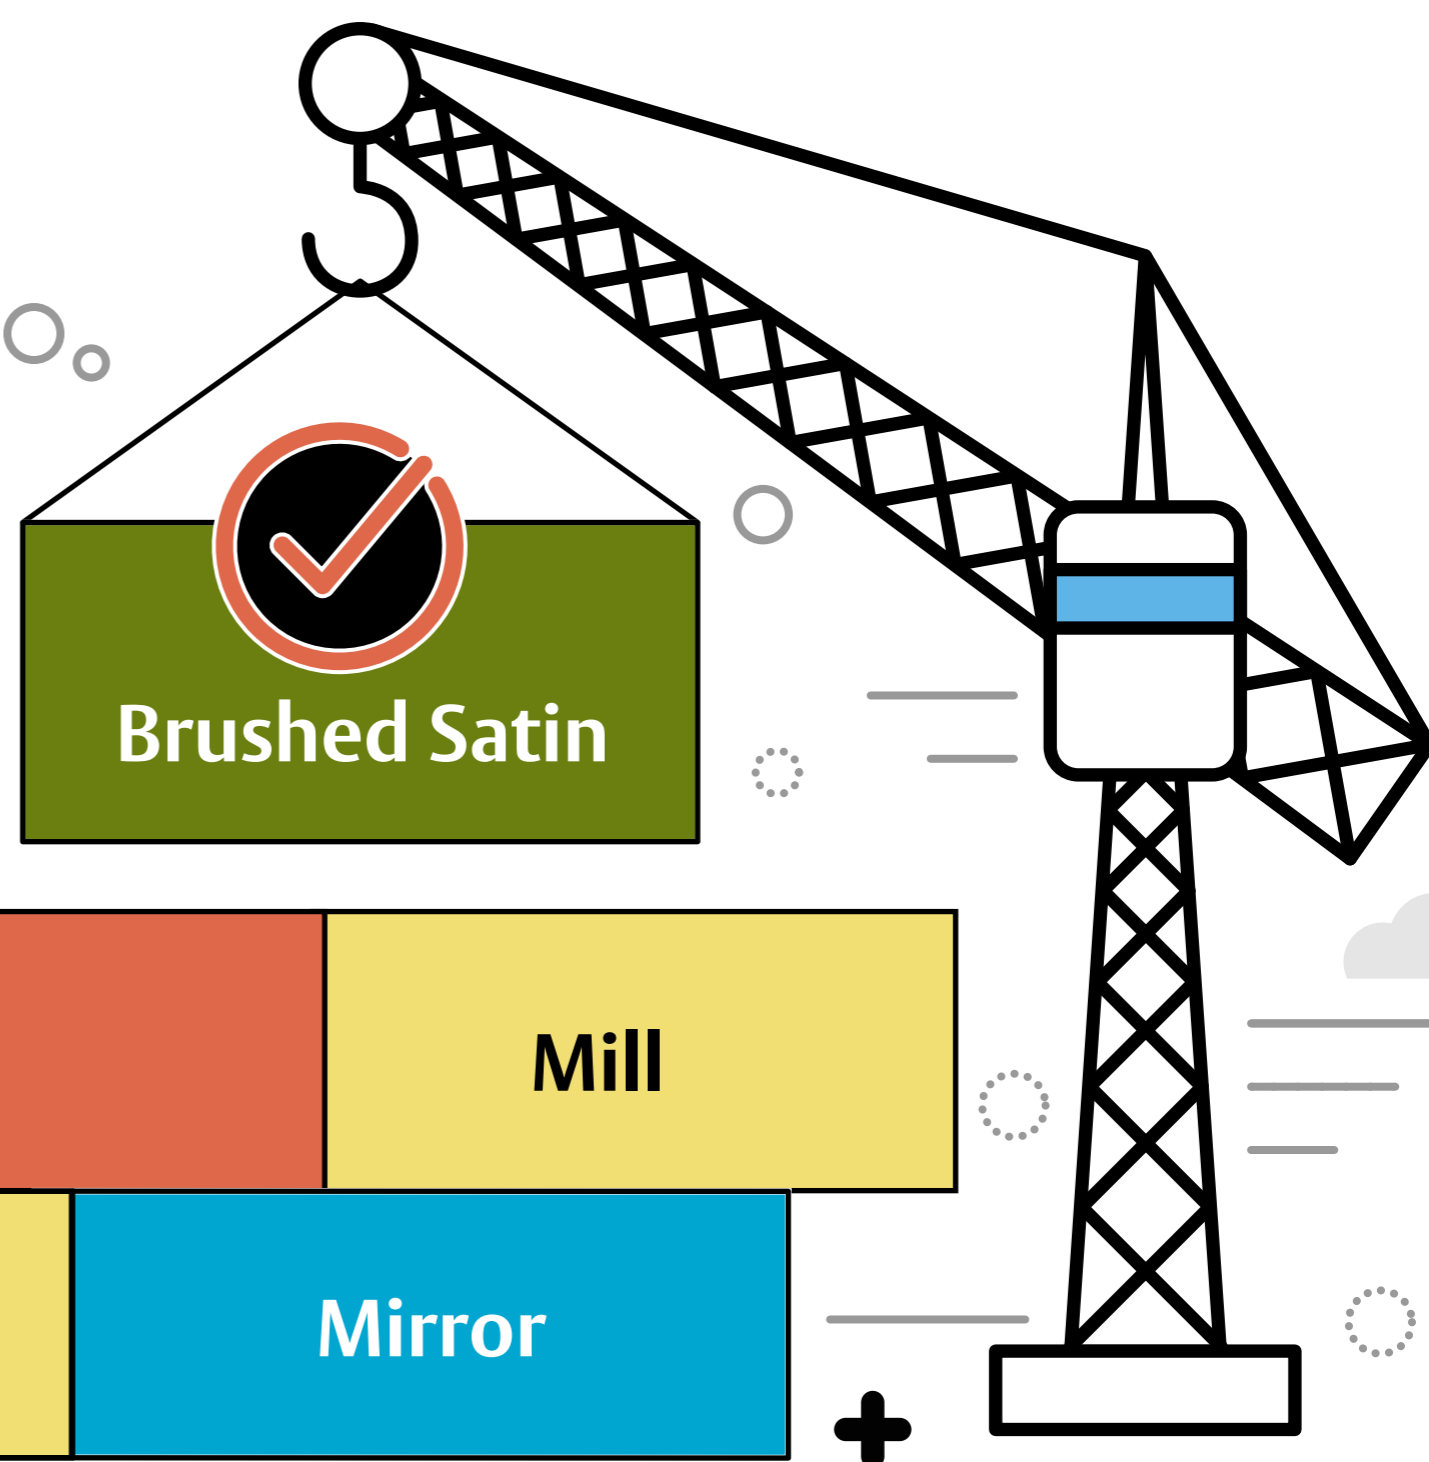

Curries Stainless Steel doors

are beautiful and functional — and ideal for clean room environments, and other commercial, institutional, and high-design environments.

Form

Select A Beautiful High-Style Finish

Function

Select A Durable Door, Safe and Secure

- Available with 18-gauge through 14-gauge face skins.
- Stanford polystyrene core with visible lock seam edge.
- Optional steel stiffened and honeycomb cores.
- A variety of frames from welded corners to custom frame profiles.
- The most commonly used stainless alloy (No. 304) or an even more durable one for corrosive environments (No. 316).
