

# RF Shielding Opening Solutions

Commercial, Industrial, and Governmental Facilities

## Applications

- Business Offices
- Test Labs
- Emergency Call Centers
- Sensitive Electronic Installations
- Computer Data Processing Security Centers
- Government - Military Security Centers
- Financial Centers
- RFID Scanning Areas

## Standard Options

- 2'6" x 6'8" up to 4'0" x 8'0"
  - Flush only
  - Single swing
  - Standard frame anchors
- Consult factory for available fire ratings

## Additional Options

- Sound rating up to STC 50
- Bullet rating to level 8
- Blast openings
- Lead Lined

## Assembly Includes

Door, frame, conductive perimeter seals, copper primer, threshold and conductive caulk and primer

Commercial and industrial radio frequency shielding in a commercial or government application is critical in controlled environment testing. As the testing is in a contained environment, the RF shielded enclosure allows for accuracy in equipment function, procedures and results. The RF shielded enclosure prevents outside interference, thus allowing for accurate test data. CURRIES RF Shielding Solutions help ensure sensitive and confidential information is contained.

CURRIES' RF openings have been third party tested in accordance with NSA-94-106, providing greater than 40 decibels (dB) shielding attenuation for electric fields over the 10 kHz to 10 GHz frequency range. Conductive perimeter seals, Pemko threshold and caulk are included with each assembly.
